# Administrative Unit Assessment Report

**Assessment** is a term commonly used to encompass the process of gathering and using evidence to guide improvements.

SACSCOC requires that "The institution <u>identifies</u> expected outcomes, <u>assesses</u> the extent to which it achieves these outcomes, and <u>provides evidence of seeking improvement</u> based on analysis of the results".

Most administrative units measure **Operational Outcomes** which describe the level of performance of an operational aspect of a program or office (ex. number of services provided, timeliness of a process).

Some units may measure **Student Learning Outcomes** which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences (ex. Student Wellness Program may measure student knowledge of healthy habits.)

#### What type of Outcome would you like to add?

Updating policies and procedures remains a focus for the Office of Human Resources for the upcoming assessment period for 2021-2022. During this previous period, we were able to process and update 6 policies, which was our performance target of "Met." We plan to keep this goal for this assessment period and work to update polices and procedures in accordance with state human resources regulations.

Calendar to keep track of employee engagement events

#### Data Collected for this Timeframe (Results)

Due to COVID-19 limitations and restrictions, we were able to host 6 employee engagement events during this assessment period. In all, we held or partnered with a campus partner for 6 events.

#### **Comments/Narrative**

Employee engagement events allow for faculty and staff to network together in a social environment that helps bring the University closer. This will help build partnerships that can translate to a better work product for our faculty and staff. Events held during the assessment period were well-received by employees, thus making this a goal that the Office of Human Resources will continue to work towards having in the upcoming assessment period. Social distancing guidelines and requirements may limit our ability to hold certain employee engagement events, but we will try to introduce other ways to promote employee engagement.

#### **Resources Needed to Meet/Sustain Results**

Budget of \$3,000 to cover expenses related to employee engagement events.

#### **Explanation of How Resources Will Be Used**

Resources will be used to pay for food, services, and other activities that add to the employee engagement events for Lander faculty and staff.

## **Goal Summary**

#### **Goal Summary/Comments**

Employee Engagement activities will be scheduled for at least one event per month, either presented by the Employee Engagement Committee or in partnership with another department on campus. This goal was on its way to being accomplished in 2020-2021, but was cut short due to the changing COVID-19 limitations and restrictions. An event per month may be hard to obtain in our current climate, but that is still the goal for the Office of Human Resources to ensure promoting employee engagement.

#### Changes Made/Proposed Related to Goal

Events will be added to work towards meeting proposed goal of one employee engagement event per month.

#### **Comments/Narrative**

More visibility at career fairs could provide an opportunity to promote Lander as an employer of choice and provide a more face-to-face chance to interact with prospective employees. Career fairs give a chance to sell the benefits of employment at Lander and is a goal we strive to work on during the 2021-2022 assessment period.

ITS has created and setup the system based on available resources on hand, so there was no additional cost to the University for this system.
