CARE Team and Intervention Authority

1 Authority and Mission

- 1.1 In order to encourage an environment of increased safety, Lander University ("University") is authorized to create a Collaboration, Assessment, Response, and Evaluation team ("CARE Team") to identify, assess, and respond to behavior that may pose a threat of harm to university students, employees, or invitees.
- 1.2 The mission of the CARE Team is to promote a safe, caring, and productive environment for all members of the university community. The CARE Team addresses critical psychological, emotional, physical, behavioral, or other well-being concerns through review of reported incidents, and provides recommendations to ensure the safety of the university community.

2 Scope and Limitations of Authority

- 2.1 The CARE Team's efforts do not replace other classroom management or disciplinary processes.
- 2.2 The jurisdiction of the CARE Team's authority shall extend to employees, students, visitors, applicants, or community members regarding on- or off-campus behavior deemed to be a legitimate concern and/or a potential threat of harm to one or more members of the university community.
- 2.3 The CARE Team determines whether a person's behavior constitutes an unreasonable risk to one or more members of the university community and, when necessary, recommends an action plan to pertinent university personnel with authority to take immediate emergency action, including, but not limited to, interim suspension, the removal of the person from university property, and/or the issuance of a trespass notice.

- 2.4 No member of the CARE Team will disclose any individual's criminal history record information or personal health information or otherwise use any other record beyond the purpose for which such disclosure was made to the Team. However, such information may be shared with senior members of the university administration on a need-to-know basis to consider suitable action based on circumstances.

3 Procedures

- 3.1 The CARE Team shall meet regularly and as necessary to evaluate behaviors that are perceived to be potentially self-injurious, threatening, harmful, concerning, or disruptive and, as necessary, to coordinate a timely response.
- 3.2 The Team shall be a multidisciplinary group composed of individuals from various university departments to ensure collaboration and coordination of efforts. Key members will typically include, but are not limited to, representatives of the following areas: Lander University Police Department, Office of the Dean of Students, Division of Enrollment and Access Management, Division of Academic Affairs, and Office of Human Resources. To maintain confidentiality, core Team members may be divided into subsets based on an individual's affiliation (e.g., employee, student, other affiliation).
- 3.3 Any action(s) that may be imposed on a student (e.g., the loss of privilege to live on campus, suspension, or expulsion) require(s) a formal referral to the Office of Student Conduct. Such referrals will initiate the disciplinary hearing process in accordance with the Lander University Student Code of Conduct published in the [Student Handbook](#).¹ Any student medical leave will be administered in accordance with the university's Student Medical Leave Policy.
- 3.4 Employee-related matters shall be referred to the Office of Human Resources and resolved based on university policy and applicable state laws. All faculty-related matters must be referred to the appropriate academic reporting channels (e.g., chair, dean, provost) before referral to the Office of Human Resources.
- 3.5 Due process shall be afforded to all individuals, the specific details of which are published in the Student Handbook, the [Faculty Handbook](#),² and the Employee Handbook.

4 Tracking and Record Management

- 4.1 For all relevant cases, the CARE Team shall maintain confidential records, including records regarding follow-up and reports that derive from any assessment proceedings.
- 4.2 These records shall be entered into a secure, protected, and searchable database that will facilitate the monitoring of ongoing cases and the provision of assessment and longitudinal follow-up.
- 4.3 Students may submit a written request to have their CARE Team notes expunged.
- 4.4 The CARE Team retains the authority to expunge, amend, or retain the notes “as is.” A written summary of the CARE Team’s decision on expungement requests shall be made available to the student.
- 4.5 If a request for expungement is denied by the CARE Team, an appeal of the CARE Team’s decision may be submitted in writing to the Office of the Dean of Students. The appeal should describe the basis of the request, including any changes in circumstances since the previous review. A written summary of the Dean of Students’ decision on expungement shall be made available to the student.
